Smart Security Solutions

TRACK & TRACE

Product Serialization with Supply Chain Tracking

B$URE

B$URE means that you can be sure
your US banknotes
are genuine

Counterfeit-proof supply chain tracking -
1D, 2D , QR and alphanumerics codes
all protected against counterfeiting
by Bsecure with GoSure
to prevent
fraud and diversion.

Pitkit Printing Enterprises Ltd.

Connect the physical and digital world by linking product to valuable interactive digital experience

GoSure

GoSure permits you to go surely into
variable data while retaining the
certainty of authenticity

Covert

Bsecure assures that your system
is secure - no counterfeits or
alterations

Serialization with our covert features provides
secure storage of document or product data
that can be recalled across the entire
governmental or corporate structure
without fear of alteration or
duplication

Pitkit Ltd. is the parent company and
produces ID cards for Israel,
Belgium and others.

GoSure provides maximum flexibility when printing with HP Indigo digital presses.
Combine counterfeit protection with variable data, such as serialization in a single press run.

Our solutions are available for all commerical printing technologies, both conventional and digital.

Brand Protection

Proprietary Solutions

Overt / Covert Security Features

Bsecure is a full-service value document and brand protection consulting and integration organization. Our Bsecure covert machine-readable counterfeit system is considered the most secure protection available.

We can combine covert and overt anti-counterfeiting features, track-and-trace and serialization to provide complete cost-effective protection for labels, ID cards, drivers' licenses, passports and other value documents, as well as brand protection for pharmaceuticals, high-risk materials, products and consumer goods.
