Letter from the Director

In April 2014, the University Senate approved the updated Student Rating of Teaching (SRT) form. The SRT is expected to improve how teaching is assessed by students and help instructors better understand how they can improve their teaching. The SRT results are linked to the University's Student Learning Outcomes (<http://www.slo.umn.edu>).

The updated Student Rating of Teaching is divided into two major sections and two supplemental questions:

- Section 1: Instructor Ratings - This section contains five questions for students to rate their instructor and an open-ended question: "What did the instructor do that most helped your learning?"
- Section 2: Course Ratings - This section contains six questions for students to rate their course and an open-ended question: "What suggestions do you have for improving this course?"
- Supplemental Questions
 - Did you take this course because it was required or was an elective?
 - How would you rate the physical environment in which you take this class, especially the classroom facilities, including your ability to see, hear, concentrate and participate?

Included in this report are summary statistics for the five Instructor items, the six Course items and the two Supplemental items. If students were administered the online version of the SRT, their specific responses to the open-ended questions are also provided with this summary report.

Beginning Spring Semester 2015, SRT reports will be generated regardless of class size and provided to instructors and Department Chairs/Heads. Please be aware that reports based on small sample sizes need to be interpreted with caution.

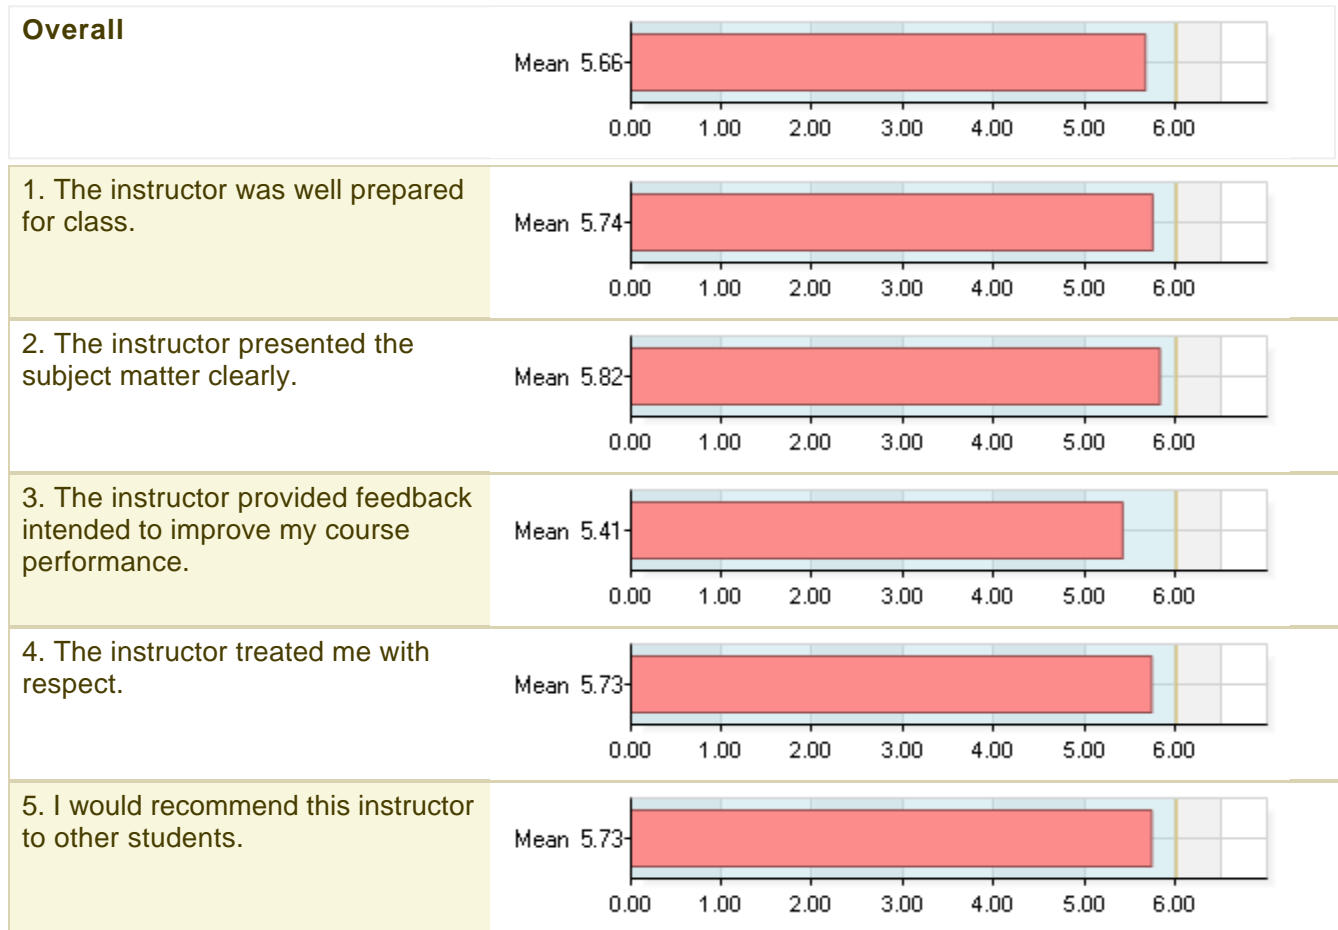

For a fuller interpretation of the items and suggestions for improving instruction, please refer to the SRT User's Manual. This Manual, as well as other very useful SRT information, may be found at the SRT website: <http://oms.umn.edu/srt>. For an updated list of training resources, workshops and other sources for instructional support, you may also contact the Center for Teaching and Learning (CTL) (<http://www1.umn.edu/ohr/teachlearn>).

Thank you.
