Planning for Cash-Flow Negativity

With a growing number of Local Government Pension Schemes planning for cash-flow negativity, there is increased interest in generating income from real assets, particularly given the low yield environment. There are a range of benefits of implementing an income focused real asset portfolio, but investors need to understand the challenges to make the approach work for them. In this session, we will examine how the LGPS can invest in real assets. Specifically: 1) How to tailor a real assets portfolio to meet cash-flow needs. 2) What we can learn and improve from insurance companies who use a similar approach but are constrained by their regulatory environment 3) What the LGPS pools need to consider when building option for their scheme clients.

NIREN PATEL, INVESTMENT STRATEGIST, AVIVA INVESTORS

The changing role of real estate income in cashflow matching strategies

The solutions for Local Authority pension schemes needing higher yielding returns to match cash flow liabilities and help to plug any deficits in funding that may exist; Growing sustainable income streams from alternative real estate and investing in acyclical trends with traditional value investing; Investing in the benefits of property as a real asset to protect against rising bond yields. Issues affecting real estate from LGPS pooling.

IAN MASON, DIRECTOR, PORTFOLIO MANAGER, AEW UK REAL RETURN FUND

Build to Rent: Helping address the UK housing shortage whilst generating a Sustainable Income

Recent developments may provide investors with a sustainable income through the provision of affordable rental accommodation for middle income earners and key workers. We will discuss how institutional capital can help address shortages in affordable housing, allow tenants to put down roots creating sustainable communities whilst aligning interests between the Local Authority and the Pension Fund. We look at why supply/demand dynamics within the private rental sector remain favourable for LGPS investors in spite of the rise of the build to rent funds.

ANGUS HENDERSON, HEAD OF BUSINESS DEVELOPMENT, BMO REAL ESTATE PARTNERS

14.00 **Session 3: Management of Assets**

Moderator: JOHN HARRISON, ADVISOR, BORDER TO COAST PENSIONS PARTNERSHIP

Improving Cost transparency and Net Return: Big data in action!

Managing costs in asset management can help boost return and safeguard your interests as investors. This talk will look at new ways of understanding the true costs of investing (beyond TER) and consider how to achieve an extra net return in the portfolio without adding any risks or making changes to the manager mix. The Sainsbury Pension Scheme will explain how they have increased their cost efficiency.

Building an Investment Capability

Specialist Pension Services: SPS Conferences is a small, specialist company focusing entirely on providing essential, high quality and timely investment information to Large Pension Funds and their Advisors via a series of one day conferences in London and in key locations throughout Europe. SPS Conferences is the sister organisation of the EPFIF (European Pension Fund Investment Forum) and has been running investment conferences for the Pension Fund community since 1993. A wide range of investment and related topics are covered, including Alternative Investing, Bonds, Equities, Property, Absolute Return, Private Equity, Risk Management and DC Issues. Furthermore, because we know that you prefer to be educated rather than sold to, we strongly encourage our speakers to focus on giving educational speeches. An Advisory Committee of Pension Funds has been set up to help us keep our conferences relevant to your needs year on year, as we understand that there is a preference to be amongst peers at conferences rather than be outnumbered by Marketing Executives from Service Providers and so we have a very strict admittance policy biased heavily towards Large Pension Funds. We aim to have more pension funds in the room than service providers. SPS Conferences understand that delegates appreciate generous question and answer sessions during the conference and we also provide a number of opportunities to talk to your peers and the speakers. This includes tea/coffee break(s), a full three course sit down lunch and a drinks reception at the end of the day. When you put all this together, you get conferences where you can learn essential, timely information to assist you with all areas of pension fund investment management, in a friendly, relaxed, atmosphere amongst your peers. please visit our website: www.spsconferences.com for an update of this conference and details of the other specialist pension and investment conferences we organise.
