Opportunities in shorter dated credit for pension schemes

An overview of our investment outlook for the year ahead. How can shorter dated credit be used to achieve strong returns with minimal volatility? Comparing this approach with traditional absolute return credit and how they can provide liquidity and cash flow.

CHRIS BOWIE, PARTNER, TWENTYFOUR ASSET MANAGEMENT

Relative Value in Multi Asset Credit Investing

As the relative value between different credit asset classes shifts over time, Multi-Asset Credit (MAC) investing enables tactical and dynamic asset allocation to profit from a broad range of opportunities, mitigate risk and manage duration. Where are we today across credit markets and what are the current trends? Looking forward, what worries us and where are the most compelling individual credit opportunities that MAC strategies will seek to capture on a relative value and absolute basis.

DARREN TONER, PORTFOLIO MANAGER, CQS

10.25 **Coffee / Tea**

10.55 **Securitised Markets**
MODERATOR: CLIVE GILCHRIST, DEPUTY CHAIRMAN, BESTRUSTEES

What's backing your bonds?

Introduction to the securitised credit market and an overview of the US and European ABS markets. What are the interesting opportunities as well as potential areas of concern within the securitised market? Are we being lulled into a false sense of security 10 years on from the Financial Crisis, or are there reasons to be in the MBS sector? Are car loans or US commercial real estate mortgage backed securities the seeds of the next crisis? How can securitised credit be used within a UK DB scheme.

MICHAEL WANDS, SENIOR INVESTMENT DIRECTOR, PUTNAM INVESTMENTS

Are you Invested in the Second Largest Global Fixed Income Market?

This session will explore why US Agency Mortgage Backed Securities may be the largest fixed income sector currently overlooked by UK Pension Funds, with the potential to provide diversification, downside protection and strong risk-adjusted returns.

BRIAN McDONNELL, SENIOR PORTFOLIO MANAGER, MACQUARIE INVESTMENT MANAGEMENT

12.10 **Drinks and Lunch**

13.20 **Changes Ahead**
Moderator: JOANNA MATTHEWS, CLIENT DIRECTOR, CAPITAL CRANFIELD

Delivering Positive Returns in a Potential Bear Market for Bonds

Rising interest rates and inflationary risks could result in losses for investors with traditional global fixed income exposure. How can unconstrained fixed income protect capital and deliver positive returns in such an environment?

STUART LINGARD, VICE PRESIDENT, DIRECTOR - GLOBAL FIXED INCOME PRODUCT MANAGEMENT, FRANKLIN TEMPLETON INVESTMENTS

Investing in a rapidly-changing bond market

A three-decade long bull market is coming to an end. It may soon become much harder to achieve the desired balance between risk and return. We believe that flexibility will be key. To deliver performance in this changing market, investors should consider an unconstrained approach to fixed income, with a focus on absolute rather than relative returns.

PATRICIA SCHUETZ, SENIOR CLIENT PORTFOLIO MANAGER, PICTET ASSET MANAGEMENT

14.35 **Coffee / Tea**

15.00 **Practical Issues**
MODERATOR: TO BE CONFIRMED

Putting it all together

With such a lot going on in the economy and so many investment opportunities apparently available at the moment, how do pension fund trustees choose? Today's presentations demonstrate the extent of the opportunities in fixed income alone but how should trustees choose which are the most appropriate opportunities for their fund and how can you best combine opportunities to enhance return and reduce risk?

SAM ROBERTS, HEAD OF INVESTMENT CONSULTING, CARTWRIGHT

A panel of pension scheme executives and trustees will talk about their pension fund's alternative credit and private debt investment strategies and experiences. Panelists to include:

PETER MARTIN, INVESTMENT OFFICER, MEDICAL DEFENCE UNION

16.15 **Drinks reception followed by Close of Conference**

Specialist Pension Services: SPS Conferences is a small, specialist company focusing entirely on providing essential, high quality and timely investment information to Large Pension Funds and their Advisors via a series of one day conferences in London and in key locations throughout Europe. SPS Conferences is the sister organisation of the EPFIF (European Pension Fund Investment Forum) and has been running investment conferences for the Pension Fund community since 1993. A wide range of investment and related topics are covered, including Alternative Investing, Bonds, Equities, Property, Absolute Return, Private Equity, Risk Management and DC Issues. Furthermore, because we know that you prefer to be educated rather than sold to, we strongly encourage our speakers to focus on giving educational speeches. An Advisory Committee of Pension Funds has been set up to help us keep our conferences relevant to your needs year on year, as we understand that there is a preference to be amongst peers at conferences rather than be outnumbered by Marketing Executives from Service Providers and so we have a very strict admittance policy biased heavily towards Large Pension Funds. We aim to have more pension funds in the room than service providers. SPS Conferences understand that delegates appreciate generous question and answer sessions during the conference and we also provide a number of opportunities to talk to your peers and the speakers. This includes tea/coffee break(s), a full three course sit down lunch and a drinks reception at the end of the day. When you put all this together, you get conferences where you can learn essential, timely information to assist you with all areas of pension fund investment management, in a friendly, relaxed, atmosphere amongst your peers. please visit our website: www.spsconferences.com for an update of this conference and details of the other specialist pension and investment conferences we organise.
