

Hotel Refurbishment Holiday Inn

Client:	Holiday Inn
Project:	Bedroom Refurbishment
Value:	£200k
Programme:	4 months

KA Wing's contribution

KA Wing were employed to undertake the

- Electrical
- Plumbing and
- Site clearance

Making the difference

K A Wing took on the role of M&E provider and were then asked to provide a solution to the site clearance issues. This involves the careful removal of all furniture from site, storage of some items, disposal of others, all within tight timescales and working around a multitude of other tradesmen.

This project demonstrates our capability to deliver project management and supply chain management outside of our traditional core areas of business.

Client's requirements

IHG are in the process of refurbishing their UK Holiday Inn and Crowne Plaza hotels. To this end they were looking for a contractor that could deliver:

- High quality work
- Delivered over an ambitious programme
- Minimal disruption to guests
- Right first time approach
