

MARKET RULES

IMPORTANT NOTICE RE PUBLIC SAFETY

The following rules have been imposed because stallholders are ignoring repeated requests to remain on their sites until 2 p.m. As well as encroaching on the walkways with stock and signs.

- RULE 1** Vehicles are not permitted to enter the stall area after 9 a.m.
- RULE 2** Vehicles are not permitted to enter the market stall area before 2 p.m.
- RULE 3** Vehicles parked on stall sites are not permitted to leave the site before 2 p.m.
- RULE 4** Vehicles entering or leaving the market stall area within the permitted times must not exceed 10 kph.
- RULE 5** Stallholders are not permitted to set up their stalls over the front boundary of their site, that is, on the public walkway.
- RULE 6** Signs are not permitted on the public walkways.

The above rules have been imposed in the interest of public safety. Management will not tolerate vehicle movements within the stall area during the advertised trading hours 9 a.m. until 2 p.m. Stallholders not adhering to the above rules will lose the right to operate at the Riccarton Market.

Stallholders who have to leave early must not park their vehicles on the site.

The only deviation from the above rules would be in the advent of a storm, bringing strong winds and rain or a fire or other event where your safety is at risk. We then request that you depart from the Market in an orderly fashion, taking note that members of the public could still be present.
