

PAMBRIA

more meat from head to feet

11th Annual on Property Sale 5 October 2016

'Windy Hill' Old Narrandera Rd, Via Wagga Wagga

60 white suffolk • 65 poll dorset

www.pambria.com.au

Poll Dorset Sires:

- W125 :** **Warburn 125**
Big thick, well muscled ram. Has bred exceptional progeny.
- P72 :** **Punchgrove 72**
New sire from Tasmania, his progeny continue to be what we are aiming to breed- muscular and correct.
- V304 :** **Valma 304**
Used lightly in his first year.
- AP217-11: Ashley Park 217-11**
Won May Class- Royal Melbourne 2012

White Suffolk Sires:

- W436 :** **Warburn 436**
Extremely long, upstanding ram.
- PB555:** **Pambria 555**
The perfect sire, adequate frame, correct and meaty. The top ram of our 2013 drop.
- Pen563:** **Penrise 563**
Moderate, Thick.
- W200 :** **Warburn 200**
Moderate, tremendous muscle pattern.

RAM MANAGEMENT

Despite their enormous value to a sheep enterprise, rams are often forgotten after purchase until joining.

Through out the year:

Maintain 5 in 1 boosters (protection for pulpy kidney- nly lasts 3 months with lush feed) and parasite management as for ewes.

Ensure rams maintain a CS of 3.

Check regularly for fly strike during high risk periods.

PRIOR TO JOINING:

Feeding approximately 500g lupins/head/day for 8 weeks prior to joining increases fertility.

Do a breeding soundness examination and cull any with abnormalities

Only purchase rams from a brucellosis free accredited flock - the incidence of bruco is increasing again.

Dr Paul Cusack BSc. MVSt. MACVSc. PhD.
