

# RILON ZX7- 200

Name	Inverter DC MMA Welding Machine ( RILON )
Model	<b>ZX7-200</b>
Peculiarity	<ol style="list-style-type: none"> <li>1. Compact in volume, light in weight and power saved</li> <li>2. Easy to arc initiation, resistance to interference, good force adjustment</li> <li>3. Stable welding current, low welding spatter</li> <li>4. Good welding result, deep welding pool, high intension</li> <li>5. Protection for over voltage, over current</li> <li>6. Automatic voltage pulsation compensation capability.</li> <li>7. Applicable for various acid and basic welding electrodes</li> <li>8. Down hand cellulose electrodes</li> </ol>

**Main Technology Parameter Table**

Power voltage (V) :	AC230	Power factor :	0.93	Rated input current(A) :	32
No-load loss(W) :	40	Output current (A) :	20-200	Housing Protection grade :	IP21
Rated output volt.(V) :	28	Rated output current(A) :	200	Insulation grade :	B
Max thickness(mm) :	10	Duty cycle (%) :	60	Efficiency (%) :	85
Weight(kg) :	8	Dimensions(mm) :	371×153×232s		
Remark :	power frequency : 50HZ ;
