

Rebel™ EMP 205ic AC/DC

Portable, true all-process welding system

Rebel EMP 205ic AC/DC and accessories.

We made the impossible possible with the first-ever portable, all-process machine, complete with MIG, Flux-Cored, MMA, DC TIG, and now AC TIG capabilities, which means – yes – it TIG welds aluminium. It is a TRUE all-in-one welding system that delivers best-in-class performance in each process in the most portable, durable, go anywhere, weld anything industrial package on the market today.

- True All-Process – excellent performance on MIG, Flux-Cored, MMA (including 6010 electrodes), DC TIG and AC TIG industrial applications
- Advanced AC TIG Features like High Frequency Starts, Frequency Adjustment up to 400 Hz, Expanded Balance & Offset Control and Dual Current. DC TIG also offers a Pulse Mode to 500 Hz.
- sMIG Technology - exclusive sMIG (“smart MIG”) feature continuously learns and adapts to the operator’s welding technique to provide a stable arc and superior, repeatable welds; increases productivity for the experienced welder, and reduces training time for novice welders
- Unmatched Portability and Durability – weighing in at only 25.5 kg, Rebel™ EMP 205ic AC/DC with 5 handle roll cage can tackle any job around the shop or out at the job site
- TFT Multilingual Display – packed full of features, Rebel EMP 205ic AC/DC has 4 programmable memory locations for each process, multi-language selection, trim adjustment, inductance control, pre/post flow control and spot weld setting - giving you the ability to fine tune your welds for the most optimal performance
